- Problem Solving
- Teamwork
- Time Management
- Adaptability
- Effective Communication
- Attention to Detail

CERTIFICATES

- **Star Cyber Security**
R11certification number (STAR19SCU00102419)
- **IT-Essential**
certification number (STR21ITE00169955)
- **Ethical Hacking Expert**
R11certyfication number (STR21EHE00169670)

EXPERIENCE

CIPL | React.js Developer

May 2023- Present CIPL | E-81, E Block, Sector 6, Noida

- Contributed to a high-impact UPSC project, developing a web application using React.js, Strapi CMS, Node.js, MUI, and Redis, collaborating on 48 internal modules.
- Wrote test cases using Jest and React Testing Library, ensuring robust application performance and secure coding practices to prevent XSS and CSRF attacks.
- Actively participated in code reviews, stand-ups, and cross-functional collaboration with designers and project managers to deliver results in a government-focused environment.
- Ensured compliance with NIC's GIGW guidelines, enhancing accessibility, usability, and standardization.

Projects :- UPSC Website and Office Automation Tools

Tech Stacks :- React JS , Redux, Toolkit, React Query , React Hook Form
Material UI , Rest Api, HTML ,CSS

PROJECT

Walmart Clone

A fully functional clone of the Walmart website with product listings, search functionality, and user interface components to simulate the real shopping experience.

Tech Stack : HTML | JavaScript | CSS | Netlify

Features:

- Single page application.
- Filter products by category.
- Purchase products.

Firstcry Clone

A responsive clone of the Firstcry website. The project simulates a real e-commerce platform for baby and kids products, focusing on UI and performance optimization. (mern stack project)

Tech Stack : React | Javascript | Express | Mongo | Node js | Chakra UI

Features:

- Multi user application.
- Single page application.
- Filter products by category.
- Purchase products.
